

GADGET GEEKS

CIPHER WHEEL

This wheel will allow you to scramble secret messages and change the key every time by rotating the wheels. The Person reading the message only needs to know one letter match to quickly and easily solve the message. For example, B=T.

Cut out both wheels, place the small wheel on top of the larger wheel. Use a brad to secure them together so they will still spin easily. You can still use the wheels even if you don't have a brad. Make your own wheels using symbols or pictures.
